THE INTEGRATED SYSTEM
OF GLASS PARTITION,
RAISED FLOOR
AND FALSE CEILING

OF GLASS PARTITION, RAISED FLOOR AND FALSE CEILING

- > **EASY INSTALLATION** // Integration with the false ceiling and the raised floor ensures simple installation and guarantee a saving of time and labor.
- > **SOUND INSULATION** // The acoustic septum built-in the floor and false ceiling, completes the system and improves the acoustic performance of the partition with double glazing.

THE INTEGRATED SYSTEM

> **ELEGANCE DESIGN AND MODULARITY** // The glass inserted into the false ceiling and raised floor enhances the architectural environment providing the maximum aesthetic essentiality. The system has been designed to offer maximum flexibility in the allocation of space.

> **SINGLE AND DOUBLE GLASS PARTITIONS** // There are two foldaway profiles that allow you to create partitions single glass or double glazing.
